**REQUEST FOR CONSENT TO SIJ
&
AGE OUT EXPEDITE REQUEST
AS 18th BIRTHDAY BELIEVED TO BE JANUARY 15, 2007**

RE: Cesar GOMEZ- MALDONADO
A# 98-666-843
Juvenile, Detained
DOB: Believed January 15, 1989 (will turn 18 years of age January 15, 2007)

I. INTRODUCTORY STATEMENT

1. Cesar Gomez-Maldonado is currently being represented by Linda Kelly Hill, Professor Law of the Immigration Clinic of Indiana University School of Law, Indianapolis, Indiana (hereinafter IU). Counsel is representing Cesar on a pro bono basis with the assistance of IU law school students who are entitled to represent aliens pursuant to 8 CFR 292.1.
2. Cesar is currently in ORR custody at the Southwest Regional Youth Village, 2290 Theobald Lane, Vincennes, IN 47591 (hereinafter "Vincennes"). Counsel therefore requests the Department of Homeland Security (DHS) provide specific consent to state court jurisdiction so that such court may consider granting a dependency order as required for approval of a Special Immigrant Juvenile ("SIJ") status visa under INA § 101(a)(27)(J)(ii)(I).
3. Cesar asks that this request be expedited because he will "age out" under current immigration and Indiana law (the state in which he is currently detained), when he turns eighteen (18) years of age, which is believed to be on January 15, 2007. While Cesar was abandoned by his parents at an early age, he believes his birthday to be January 15, 1989. Given the imminence of Cesar's 18th birthday, your earliest attention to this request is respectfully and urgently sought.

II. STATEMENT OF THE LAW

A. GENERAL SIJ REQUIREMENTS

1. Statutory Requirements

Special Immigrant Juvenile Status (SIJ) is set out by INA § 101(a)(27)(J). Such section states an immigrant is eligible for SIJ status if:

- a. A United States juvenile court either declares him dependent on the court or legally commits him to or places him in the custody of an agency or department of the state, ie., legal guardianship proceedings;
- b. A United States juvenile court declares him eligible for long-term foster care due to abuse, neglect or abandonment;
- c. An administrative or judicial body determines that it would not be in the alien's best interest to be returned to the alien's or parent's previous country of nationality or last habitual residence; and
- d. The Attorney General specifically consents to the juvenile court's jurisdiction to determine the custody status or placement of the alien when the alien is in the actual or constructive custody of the Attorney General.

2. Regulatory Requirements

The regulations supplement such statutory standards. 8 CFR § 204.11(c) provides that an alien is eligible for SIJ status if he:

- a. is under twenty-one years of age;
- b. is unmarried;
- c. has been declared dependent upon a juvenile court;
- d. has been deemed eligible by the juvenile court for long-term foster care;
- e. continues to be dependent upon the juvenile court and eligible for long-term foster care; and
- f. has been the subject of judicial or administrative proceedings in which it has been determined that it would not be in the alien's best interest to be returned to the country of nationality or last habitual residence of the beneficiary or his or her parent or parents.

B. NECESSITY OF DHS CONSENT

As both the statute and relevant regulations note, when a child is in custody, federal consent must be granted to allow for the state juvenile court to proceed with its determination. The DHS is the agency with the authority to grant such consent. The requirement of consent was passed as a 1997 amendment to 101(a)(27). Its purpose is recognized by the courts and Congress to limit SIJ status to those who need relief from abuse or neglect, rather than for those applicants who seek the SIJ benefit primarily to obtain permanent resident status. *F.L. v. Tommy Thompson*, 293 F.Supp. 2d 86, 88, 98 (Dist. D.C. 2003). As the Congressional Conference Report on the consent amendment further states:

the language had been modified in order to limit the beneficiaries of this provision to those juveniles for whom it was created, namely abandoned, neglected or abused children, by requiring the Attorney General to determine that neither the dependency order nor the administrative or judicial determination of the alien's best interest was sought primarily for the purpose of obtaining the status of an alien lawfully admitted for permanent residence, *rather than for the purpose of obtaining relief from abuse or neglect.*

F.L. v. Thompson, 293 F.Supp. at 98 (quoting H.R. Rep. No. 105-405, at 2981 (1997)) (emphasis added).

III. PROCEDURAL HISTORY

1. Cesar arrived in the United States on or about September 28, 2006 (Exhibit 1, Notice To Appear). The NTA charges Cesar as a native and citizen of El Salvador.
2. Cesar was first placed in the Boystown shelter in Miami, Florida. He remained in Miami until approximately October 27, 2006. At such time, Cesar was transferred to Vincennes.
3. Cesar's case is currently pending before the Immigration Court in Chicago, Illinois. His next master calendar hearing is January 4, 2007 (Notice of Hearing, Exhibit 2). Through undersigned counsel, Cesar is moving that such proceedings be terminated. It is the respondent's position that the government will not be able to establish its burden of establishing alienage. While undersigned is aware that the government is in possession of at least one version of a Record of Inadmissible/Deportable Alien (I-213), such version is apparently not properly authenticated by the immigration officer. Consequently, DHS Trial Attorney Kim Kucik (312 353-7317) was unwilling to introduce such I-213 into evidence or provide it to undersigned counsel at respondent's last master calendar hearing (of December 14, 2006). As further explained below, other documentation contained in ORR's record and otherwise collected also fail to establish Respondent's alienage (see, Exhibits 3-15, *infra*).

IV. STATEMENT OF THE FACTS

A. LIFE OF ABANDONMENT, ABUSE AND UNKNOWN ALIENAGE

1. Prior to arriving in the United States on or about September 28, 2006, Cesar lived in Mexico. Cesar is neither confident of his nationality nor his date of birth. Cesar has repeatedly reported that he was abandoned by his abusive parents at the age of seven. From the age of seven onward, Cesar has been homeless and has survived alternatively by begging, working and finally being forced into gang affiliation. Cesar's tragic history is reflected in numerous ORR documents.

2. In his first Psychosocial Assessment (Exhibit 3), Cesar's abandonment, abused condition and uncertainty of his alienage or date of birth were clearly reported. The report reflects:

"[Cesar's] parents used to abuse drugs and alcohol and they used to live in the street. Parents abandoned him when he was 7 years old. He used to go to the house of a Guatemalan family; they used to give him food after a year, he said they were poor and did not help him anymore; he continues living in the streets. Minor said when he was 11 years old he began to work in different places as ranchos picking papayas and he was taking care of him [sic]. He did not know if he had brother [sic], sisters or any other family. *He did not know where or when he was born. Only one time on the anniversary of a saint his mother told him he was born in his day [sic], so he said he is 17 years old on that day.* (Emphasis added)

3. Cesar has repeatedly indicated his inability to provide his nationality, age and his long life of abandonment and abuse. In his Admission Assessment (Exhibit 4), when asked "Please describe your typical day in your *home country*" (emphasis added), Cesar refers to Mexico, not El Salvador:

The child stated that he was *living in a Mexican farm* where he was working. He wakes up at 5:30 AM and starts working. He has breakfast at 8:30 AM and then returns to the farm to continue working. At 1:00 PM one hour lunch. After that, he returns to work until 5:30 PM. Then have relaxing time. The child stated that prior his 11 years old he was living on the street. He was abandoned by his parents at the age of 7 years old. *(emphasis added)*

In the same admissions document, the following responded was provided to "Other biographical information":

The child stated that he had changed his living placed different times due to the gangs warnings. He was advised by the gangs members that his better ways [sic] was to join them or be in trouble. The child state that he refused and ha [sic] has

been moved to different places.

In such report, Cesar also indicated his parents names as Cesar Gomez and Ana Maldonado. However, Cesar also indicated "does not recall" either parent's address and has had no contact with them since 1997. Cesar has also informed undersigned counsel that he only learned his parents' names through the Guatemalan family that took care of him after his parents abandoned him.

Such admission assessment also confirms Cesar's homeless condition. In response to "Have you ever lived on the street" Cesar was reported to have said "YES" and then explained that he "was abandoned by his parents when he was 7 years old. When he was 8 years old he found a Guatemalan family that cared him for a year [sic]. Then he returned to the street. At the age of 11 years old, the child started working in different places and caring him by his own. [sic].

The admission assessment also confirms Cesar's ongoing inability to demonstrate alienage. On at least one occasion, Cesar recalls having difficulty with Mexican immigration, who ultimately let him go because he was a minor.

4. Other ORR reports corroborate these relevant details of Cesar's life, reflect that Cesar suffers both emotionally and physically from his traumatic life and has no viable family reunification options. These documents include:

a. Exhibit 5, Psycho-Social Summary & Individual Service Plan (10/10/06)

"Minor was abandoned by parents when he was about 7 or 8 years old. He lived on the streets until he was 11 years old. A Guatemalan family used to give him food for a year. After that he continued living on the streets. Gang member wanted him to join them, they threatened him and he to pay them so he does not have to do everything they want and he had to move frequently. He does not know his family; *he does not know where he was born or when he was born.*

(Emphasis added).

Don't know where he was born or when he was born

b. Exhibit 6, Addendum of 10/24/06, Boystown/UMP

"Cesar has been stated that he cannot identify where is he from. He said that has been living in Mexico since he was 7 years old and after his parents left the house he was living with a Guatemalan couple who supported him for approximately 2 years. After that, the child joined to the gangs in the location where he was living with many people from different nationalities. The child stated that he has drugs abused. [sic]

c. Exhibit 7, Catholic Charities Case Note of 10/3/06 - reflecting Cesar's abandonment at age seven and homeless life in Mexico

d. Exhibit 8, Catholic Charities Case Note of 10/6/06 - reflecting Cesar's severe state of

depression ("Minor was with attorney and became very sad talking about his life and he was crying and crying.")

e. Exhibit 9, Catholic Charities Case Note of 10/12/06 - reflecting Cesar's abandonment at age seven, homeless life in Mexico and depressed emotional state.

f. Exhibit 10, ORR/DUCS Transfer Request of October 24, 2006 - reporting "The minor currently has no viable sponsor and no family reunification." (Emphasis added). Also reporting Cesar's psychological diagnosis as "Mood Disorder Not Otherwise Specified and PolySubstance Abuse" and "gang related exposure" to Mexican "maras" gang.

g. ORR records also reflect that Cesar has not made a single international call. Such lack of international calls, further corroborate Cesar's abandoned state. Exhibit 11, Local/International Calling Phone Log for ORR/DUCS Youth.

B. CURRENT BEHAVIOR

Despite such lifelong difficulties, Cesar is reportedly now doing very well at the Vincennes facility. Numerous documents reflect Cesar's improved condition. These include:

1. Exhibit 12, Southwest Indiana Regional Student Progress Report of 11/10/06 - "Quiet and friendly - works hard."
2. Exhibit 13, Southwest Indiana Regional Student Progress Report of 11/17/06 - Cesar "has been very compliant and seems eager to learn."
3. Exhibit 14, Student Progress Report of 11/24/-06 - "Cesar is very quiet and studious."

C. DHS FAILURE TO PROVE ALIENAGE

1. While DHS has charged Cesar as a native and citizen of El Salvador (Exhibit 1, NTA), there is no reliable confirmation of Salvadoran nationality. Counsel is aware the DHS is in possession of an unauthenticated I-213 which DHS Trial Attorney, Kim Kucik (DHS T/A 312 353-7317) recognized as unreliable evidence that could neither be admitted to the court nor provided to undersigned counsel.
2. Furthermore, undersigned counsel has been in contact with the Salvadoran consulate and provided it with all existing information regarding Cesar. The Salvadoran consulate believes confirming Cesar's Salvadoran alienage "unlikely." In reference to a confirmation of minor's citizenship, Vice Consul Patricia Fernandez Montlavo states "[W]e regret that we are unable to assist you in locating a birth certificate or assuring you of his nationality...I believe is it unlikely that we will be able to locate information regarding Cesar Gomez Maldonado." Exhibit 15, Letter of Salvadoran Viceconsul.

III. LEGAL ANALYSIS

DHS should consent to juvenile court jurisdiction in this case because Cesar is eligible for SIJ status and because dependency proceedings would be in Cesar's best interest.

Cesar meets all of the statutory and regulatory eligibility requirements for SIJ status. Cesar's life is extremely sympathetic. Cesar was abandoned at the age of seven. He has been physically and emotionally abused. He is unaware of his country of birth and his birthdate. He has no known relatives. Consequently, family reunification is not a viable option for Cesar.

Because Cesar was both abandoned and physically abused, Cesar could easily meet the criteria of "a child in need of services" which pursuant to Indiana law results in a child becoming dependent upon the Indiana juvenile court.¹ Once declared dependent upon the juvenile court, Cesar should also be eligible for long-term foster care. Furthermore, Cesar does not recognize his country of alienage as El Salvador. He has no contacts or anyone in El Salvador, in Mexico (his last country of residence) or elsewhere who can care for him. Moreover, Cesar now lives in fear of returning to Mexico because of his refusal to participate in gang activities. Cesar's "stateless" and/or "homeless" condition should be more than sufficient for a juvenile court to find that it would not be in Cesar's best interest to be returned to El Salvador, Mexico or elsewhere. Cesar also meets the regulatory requirements of being unmarried and under twenty-one.

It should be further noted that while Cesar's history reflects drug and gang exposure, DHS consent to state court jurisdiction is not a proxy for determining eligibility for lawful permanent residency. As the courts and Congress have noted, the purpose of consent is to limit SIJ status to those who need relief from abuse or neglect, rather than for those applicants who seek the SIJ benefit primarily to obtain permanent resident status. *F.L. v. Thompson*, supra; H.R. Rep. NO. 105-405, supra. Cesar is clearly a child in need of relief from abuse or neglect.

WHEREFORE, we respectfully request that your consent to juvenile court jurisdiction so that Cesar may proceed to secure the relief from abandonment or abuse which SIJ status is

¹ Amongst other reasons, IN § 31-34-1 defines a "child in need of services" to include a child:

- a) whose physical or mental health is "seriously impaired or seriously endangered" by the inability, refusal or neglect of the child's parent, guardian or custodian (IN §31-34-1-1);
- b) whose physical or mental health is "seriously impaired or seriously endangered an act or omission of the child's parent (IN §31-34-1-2);
- c) who is a victim of a sex offense and is subsequently not provided adequate care (IN §31-34-1-3);
- d) who is allowed by a parent, guardian or custodian to participate in a obscene performance (IN §31-34-1-4); and
- e) who is allowed by a parent, guardian or custodian to commit a sex offense (IN §31-34-1-5).

intended to provide. Given the imminence of Cesar's 18th birthday (believed date of birth 1/15/89) we also ask that such consent be supplied expeditiously.

Respectfully submitted,

ADMISSION ASSESSMENT

A master's level social worker (or equivalent) completes this form within 3 to 7 days of the client's arrival, after reviewing the Initial Intake. Complete the form within 3 days for Chinese, Indian, and other children for whom suitability assessment is necessary.* The interviewer must have the required training and clinical skills to safely guide and support the child through assessment of several sensitive and potentially re-traumatizing topics, and to properly evaluate results that may warrant psychological diagnosis. The assessment process is an opportunity to convey to the child that his or her experiences, needs, and well-being are centrally important to the interviewer and the facility. Complete all sections of the form. Use your best clinical judgment in determining the phrasing of questions taking into account what is appropriate for the child you're working with. You may expand beyond the questions listed or revisit areas of the initial intake, and should ask additional and follow-up questions as needed to ensure a comprehensive assessment.

Addendum

Date: 10/24/2006

Minor: Cesar Gomez Maldonado

DOB: 01/15/1989

Date of Admission: 09/29/2006

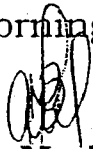

This information will be served as an updated to the initial information due to some new information provided by Cesar.

Cesar has been stated that he cannot identify where is he from. He said that has been living in Mexico since he was 7 years old and after his parents left the house, he was living with a Guatemalan couple who supported him for approximately 2 years. After that, the child joined to the gangs in the location where he was living with many people from different nationalities. The child stated that he has drugs abused. At the beginning he admitted the Marihuana, but later on the child admitted the cocaine derivation and some substances that contains gasoline to inhale.

After the medical screening the tests showed that the child has some stomach's problems. The Medical Coordinator, Maria Plaza is working to find out the specialist to start his tests as soon as possible.

During this last week, the child has been turned into an aggressive child. He is looking into some costumes of his life on the street. He is going from very high level of anxiety to a big depression. He shows to be very sad and minutes later very happy. He has very low level to control his attitude when he feels sad and does not accept that the staff speaks to him and lose a little big control.

You should receive in your hands a written letter that shows the minor's thoughts after he got an incident today in the morning with another minor after playing.

Minor's Medical/Mental Health Summary

Minor has been seen by the Psychiatrist and his Immunizations are up to date. He was evaluated by the Psychiatrist today, 10/24/06, after an altercation with another peer and he was diagnosed with Mood Disorder Not Otherwise Specified and Poly Substance Abuse. Minor shared with the Psychiatrist a history of suicide attempts-he did not share this with shelter staff.

Behavior Summary (history of: flight risk, aggressive/assaultive and sexually inappropriate behavior)

The minor was identified by the Mexican Consulate as a known gang member of "Maras" - which when confronted the minor confirmed. The minor has long history of poly substance abuse. The minor has displayed aggressive and remorseless behavior in the shelter. He had a physical altercation with another minor today, 10/24/06 and Internal Incident Report was completed. He was the aggressor. Following the incident and sessions with the Lead Case Manager, Field Coordinator, and Clinician, the minor continued to state that he will harm the other minor- he reports that he will hurt him and he does not care the cost. Despite numerous interventions, the minor continued his verbal threats. The minor wrote a letter to the Lead Case Manager with states that he plans to carry out a plan of revenge no matter what the costs. The other minor had to be moved to the girls dormitory for safety precaution Cesar showed staff some furniture screws he took apart and stated he knows what to do and will do it - referring to using the long screws as a weapon to injure the other minor.. Cesar was involuntarily committed by the police to a mental health facility on 10-24-06 due to his homicidal ideation. The hospital called today stating that Cesar was stable and that his problems are more behavioral in nature and was ready for discharge. Based on the minor aggressive behavior, determined threats of harm to injure another minor, substance abuse history and gang related exposure, the shelter is requesting transfer to a secure facility.

Current Status of Family Reunification

The Minor currently has no viable sponsor and no family reunification options.

Immigration Court Status
